-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/13/2007 has been entered.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-5, 12-16, 23-25, and 66-73 are rejected under 35 U.S.C. 102(e) as being anticipated by Kidooka (U.S. 6,964,662).

Note in figures 9-10, a clevis (120) having a base (121) and plurality of arms (122a,122b) extending from the base (121); an axle (200a) to extend between the plurality of arms (122a,122b); wherein an end of the axle (200a) includes a flared portion (204) to engage an outer surface of one of the arms (122a,122b) and a deformed portion (206) at an end of the axle (200a) opposite the flared

portion (204) considered lies on an outer surface of the other arms (122b); wherein each of the arms (122a,122b) defines a hole to receive the axle (200a); a pair of jaw (110a,110b) disposed at the distal end of the clevis (120); a handle includes a spool portion slidably disposed around the handle; and wherein the outer surface of arm (122b) is not a surface facing a hole.

***Response to Arguments***

3. Applicant's arguments filed 12/13/2007 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1 and 12 have been considered but are moot in view of the new ground(s) of rejection.
